What make us different?

Private Master's Degree in Project Management

Management experience

You will learn the fundamentals of portfolio, programme and project Management, and you will be trained to apply and develop them in any of their applications.

Industry professional faculty

Our professors are working professionals who manage projects in all sectors on a day-to-day basis, and first-class academics in the field of portfolio, programme and project management.

Curriculum

You will learn the design and use of different methodologies, frameworks, applications, tools, etc. in the field of project management.

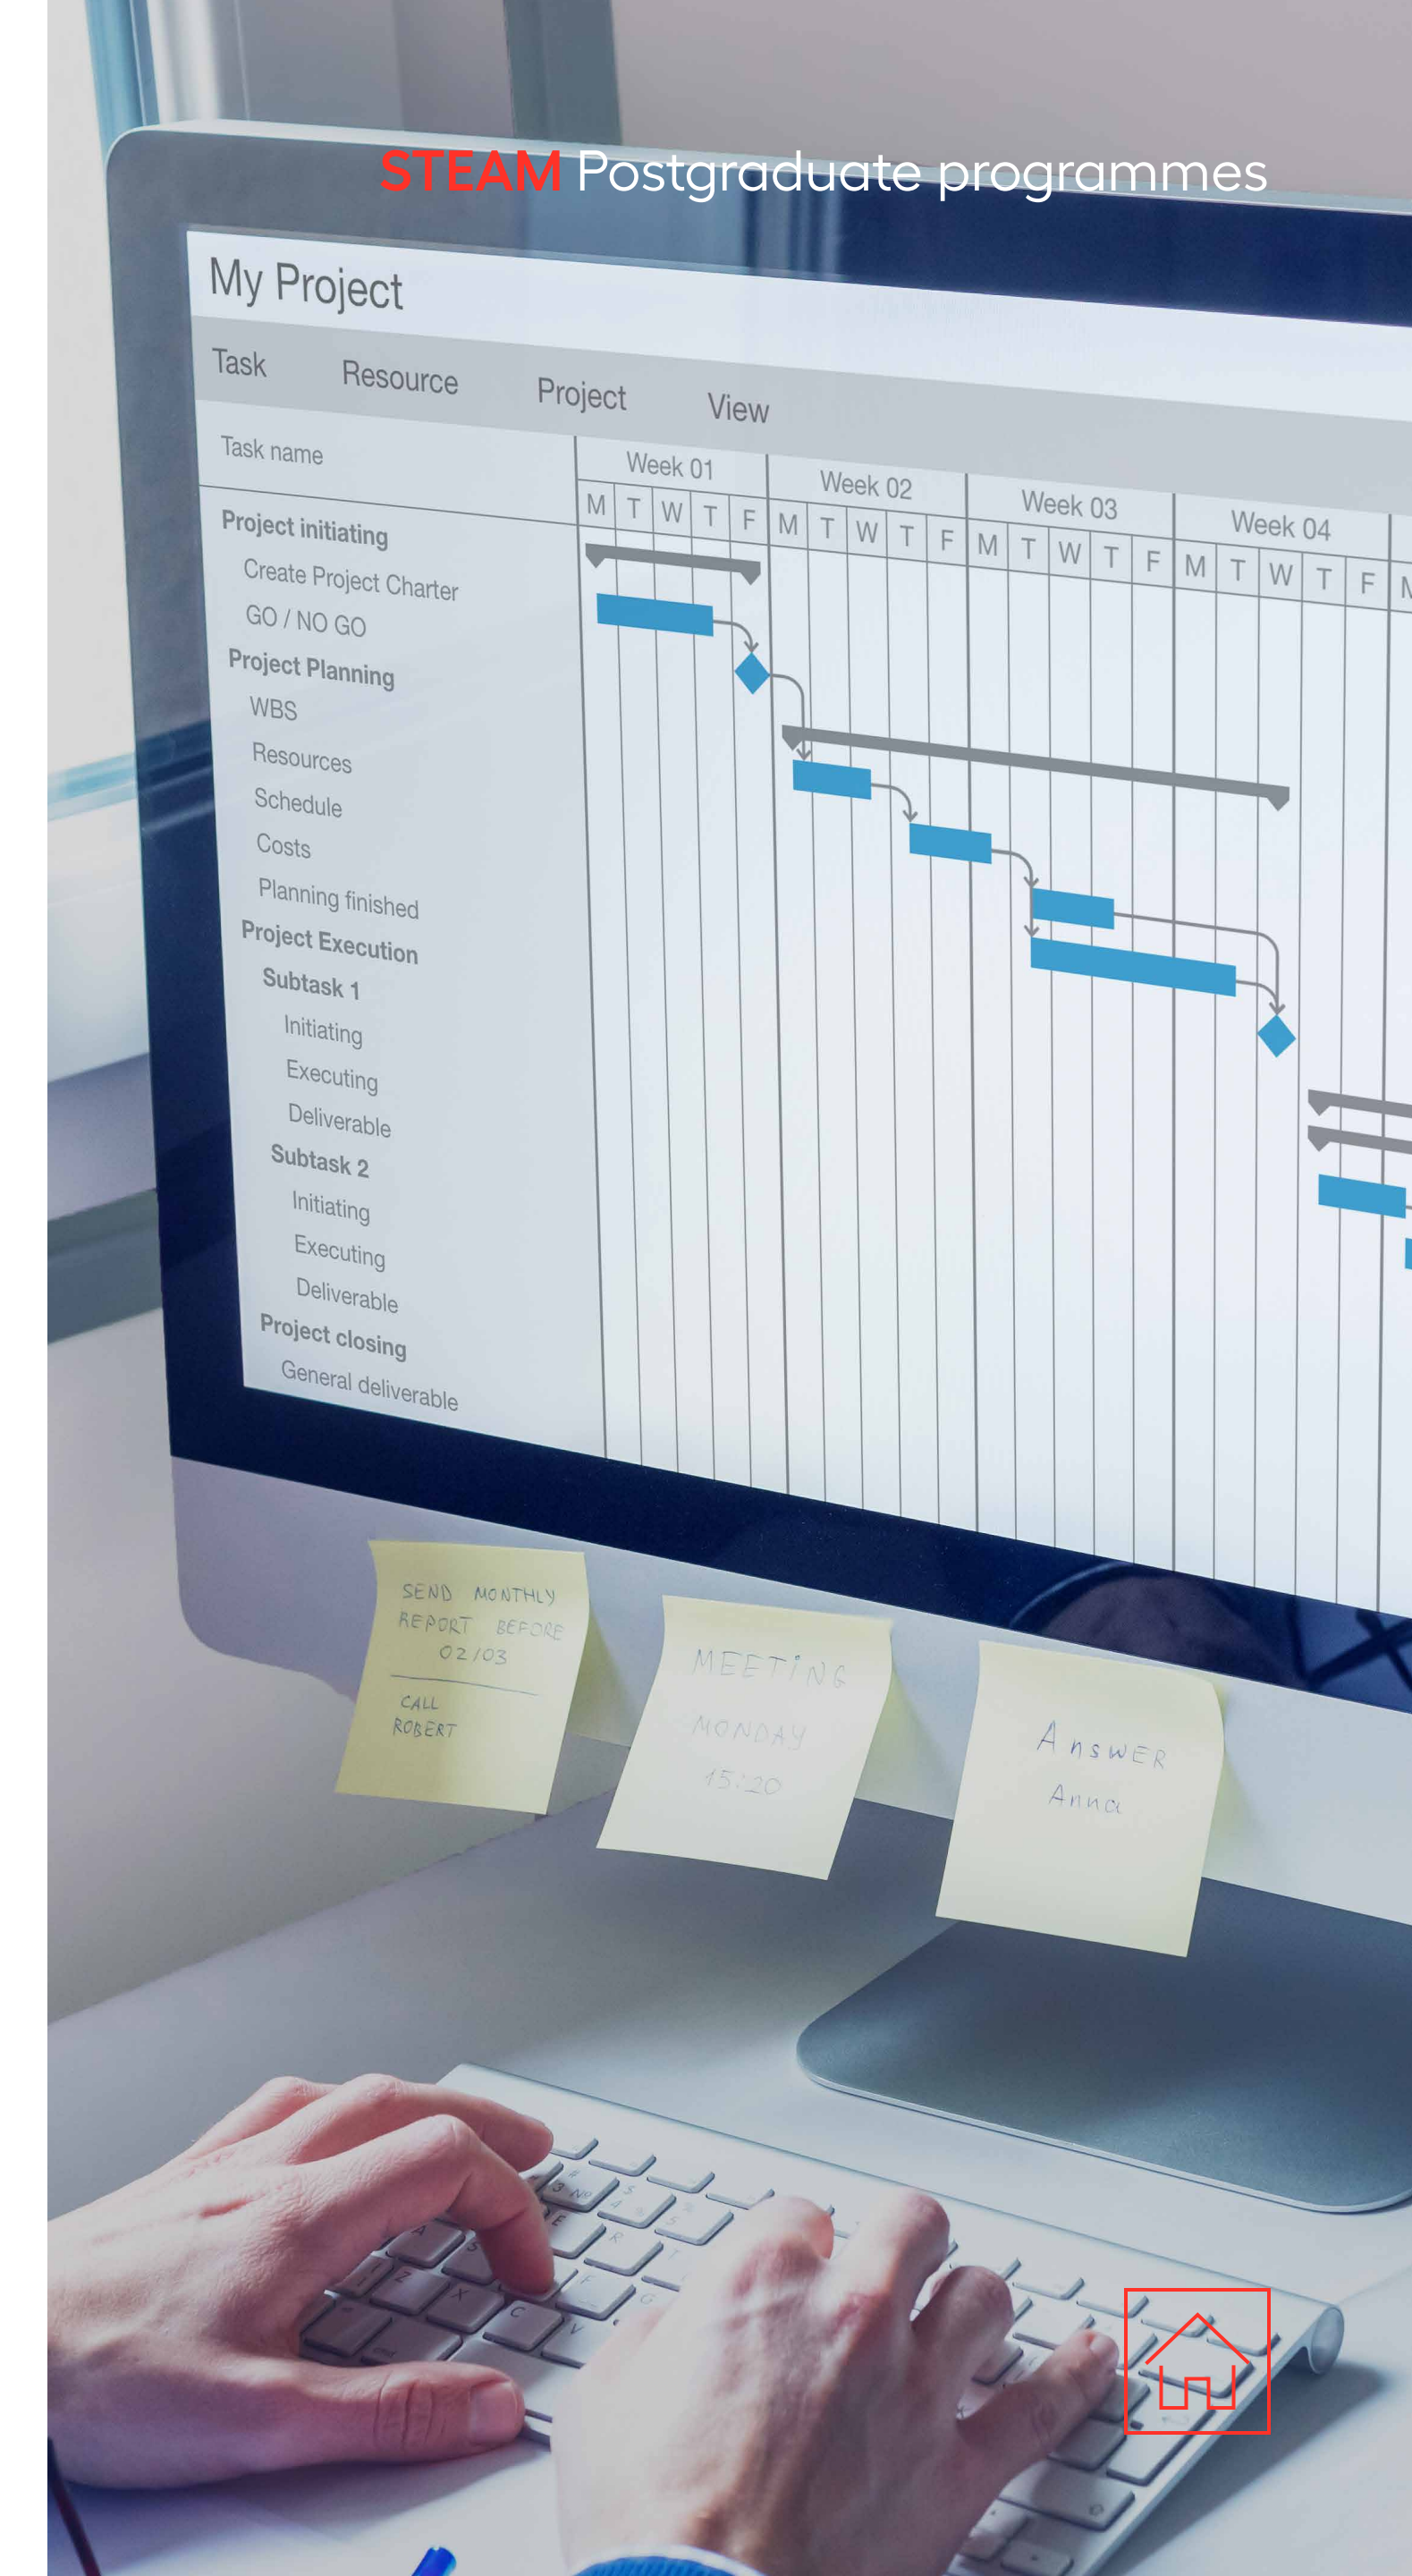

Employability

You will have the chance to learn about some of the approaches and best practices in portfolio, programme and project management, and share experiences with clients who have implemented frameworks in these disciplines.

Challenge based

Based on learning by challenge, where students integrate learning in an active way by overcoming challenges

What makes us different?

Private Master's Degree in Project Management

Throughout the Private Master's Degree in Project Management, you will study in depth a variety of management techniques and the human skills required to manage projects of varying complexity, through a broad study of experiences, tools and methodologies based on different standards such as those of the Project Management Institute (PMI) and the Agile Alliance.

In this context, the aim of this graduate degree is for a faculty of renowned professionals with a proven track-record in the field of portfolio, programme and project management to train new specialists.

To this effect, following consultation with industry professionals, the basic pillars on which this 'Universidad Europea Modern Project Management' course is based are:

- Learn to exploit the power of customer intelligence for value proposition generation.
- Understand the principles of strategic alignment and decision-making in terms of change management to select the initiatives to be developed that generate the most value for clients and the organisation itself.

- The ability to evolve appropriately between the design of solutions and their subsequent implementation through proper project management.
- Have the necessary skills to manage the transformation of organisations, both at a business level and at a personal competence level.

Additionally, at the end of the programme, students will be able to obtain a variety of certifications such as: PMP® Certification, Prince2®, Certified Scrum Product Owner® by Agile Alliance

Final Project

Student profile & employability

Private Master's Degree in Project Management

Aimed at:

- Middle and senior management who need to gain knowledge of portfolio, programme and project management
- Professionals trained in flexible methodologies who need to complement their knowledge or experience with specific topics, such as project management or project scaling.
- Project managers who wish to apply a flexible approach to project management.
- Heads of innovation departments.
- Professionals focused on the leadership of change management and digital transformation projects.
- Students and junior professionals looking for ways to focus and develop their career in project management and leadership.

Graduate profile

When students finish the course, they will be able to develop their projects based on a variety of project management methodologies that will be addressed during the academic year. Specifically:

- Be promoters of change in business models, people management and organisational culture.
- Improve the competitiveness and productivity of your company/organisation by applying agile methodologies and highly efficient working environments.
- Global management of projects with a high innovative profile and applicable to a multitude of industries
- Make the project management and planning process more flexible.
- Work in complex environments and improve time-to-market.
- Focus work to achieve greater process efficiency and customer satisfaction.
- Enhance project monitoring using different types of metrics.
- Improve team and project management. Develop teamwork skills.

Professional opportunities opened up by the private master's degree in project management

You will be qualified for the following profiles:

- Project manager, responsible for designing projects and overseeing their management. In addition, project managers oversee the decisions that are taken on objectives, problem solving, etc.
- Head of PMO (Project Management Office), responsible for streamlining and standardisation. The head of PMO determines which tools to use and under which methodologies to work when managing projects, prioritising projects, managing resources, analysing finances and managing documentation.
- Product owner, responsible for ensuring that the team delivers value to the business. They represent internal and external stakeholders, so they are required to understand and support the needs of all users in the business, as well as the needs and operation of the scrum team.

Scholarships and Assistance

Admissions process

The admissions process for **Universidad Europea** programs runs throughout the whole year, although enrollment in all graduate programs depends on the availability of places.

For personalized guidance, you can go to either of our university campuses (**Alcobendas or Villaviciosa de Odón**), or contact us via phone: **(+34) 91 740 72 72** or e-mail: postgrado@universidadeuropea.es to receive advice from the Graduate Degree Admissions staff.

Once candidates have received guidance and have provided the necessary documentation, the Graduate Degree Admissions staff will send them a date for a **personal interview** with the Workshop Program Director or a member of the Admissions Committee.

The admissions process does not involve any costs or commitment for candidates, until their place is formally reserved.
